

# Giltner Company News

February 2003

Page 1

## **Our Internet Site**

Giltner is proud to present and launch our new internet site for all of our prospective/current customers or employees to enjoy. We take pride in our operations and would like for everyone else to be familiar with our operations and what we can do for you. Once every 3 months we will bring you up to date information on what is new here at Giltner and what we are looking for through this newsletter. So if you are interested in signing up for the newsletter please do so in the main tab. We will notify you by email when a new newsletter has been up loaded.

## **Thank You**

Thank you to all our current customers for your continued interest in fulfilling your shipping needs with Giltner. We are a carrier who strives for perfection everyday in our shipping procedures. If you are not a current customer with Giltner, please give us a call and see if we could be the carrier you have been looking for.

Thank you for visiting our site and seeing what we might be able to offer you. Please also take a look at the following: our information page, employment page or even get a number to talk to someone here in our office on the contact page. If there is anything that you would like to see in our newsletter please notify Brandi Borrowman by email at [brandi@giltner.com](mailto:brandi@giltner.com). She will assist you with any of your future needs.

## **Freight Opportunities**

We are currently looking for more freight opportunities out of Atlanta, GA, Tri Cities, WA (eastern WA), Pennsylvania, New Jersey, Texas and Idaho. These are main areas we run to and would like to develop a stronger customer base. If you have anything available please contact our customer service representative Dusty Addey at extension 102.

## **Brokerage Internet Development**

We have a brokerage department that is currently creating a page for the website to list our available loads on a daily basis. We are creating an easy way for you to access available loads and communicate with our company. When this portion of the website is up and running, we will notify you by email. Once this option is available you will see an available loads tab to click on in the upper right hand corner.
